MY LEARN SCHOOL – ERP

A school ERP aids in the management of all day-to-day school activities such as administrative tasks, teaching, curriculum management, student attendance, student information, fee record management, homework management, and so on.

ESPA School Learn ERP provides all stakeholders with a consolidated dashboard view that shows all imperative information. Not only that, but with real-time data such as student progress, attendance records, and future events, parents and teachers can keep informed, improving communication between the institution and parents.

Schools can ameliorate their daily school administration procedures by implementing an integrated school management ERP system. For example, in the case of admissions, schools can carry out all processes paperless, improving efficiency and saving time and money.

Student and staff data may be accessed simply and at any time with better record management, minimizing errors. Learning content management becomes simple and efficient, allowing teachers to spend less time planning and more time executing. Assessments and assignments become easier to assign, and teachers save time by not having to manually follow up. School administration ERP solutions have emerged as a game- changer thus empowering the school owners and teachers.

MY LEARN ACADEMY – LMS

ESPA School Learn has implemented its own LMS under My Learn Academy. My Learn Academy assists CBSE students (KG-12) to learn through innovative, animated videos any time of the day. Curated fresh and updated courses for all CBSE students to uplift their learning journey. Not only do we provide free e-books with every lecture to simplify the concepts but also we conduct live sessions for our students to solve all their doubts and make learning fun.

01 ALL ANIMATED CONTENT OF MATH AND SCIENCE FOR K-12

02 NOTES FOR EACH TOPIC

03 MCQS FOR EACH TOPIC

04 LIVE LECTURES FOR ALL TOPICS OF ALL CLASSES

05 INHERENT SELF-LEARNING MODULE FOR EFFICIENT SELF-LEARNING

06 ANDROID APP AND WEB VERSION AVAILABLE

SMART CLASSROOM

My Learn School provides a Smart Class feature that includes 1 projector, 1 screen, and 1 laptop that enables teachers and students learning process exuberant and engaging. Thus, making students performance thrive.

We don't just create software and solutions at My Learn Schools. We are constructing a bridge to enable pedagogues, learners, and every participant in the learning ecosystem to overcome the digital divide. The digital paradigm is not going away. And we are here to assist you in making the shift. The software is simply a tool, a means to a goal for us. We still have a lot of work to do.

We begin by offering you the wholesome bundle stack, that includes **ERP, Content Library, and Smart Class** -a suite of tools that allows you to interact with your students remotely, conduct courses, collect payments, assign homework and quizzes, and more. Do you want to take online courses? Learn in an innovative way? How about a smart class? We have everything covered.
